

eFilePlus Release Notes Changes deployed 10/18/18

Support for APO Routing, Approvals, and Notifications

Support for APO Review and Check-outs (VPAP, EVC, Chancellor check-outs), APO final review decision and completing/closing a review.

Support for CAP Review and Notifications

Support for CAP Review (CAP committee and Senate Ad Hoc Committee check-outs).

Enhancements to better support Appraisals and Quinquennials

For Appraisals: Support for choosing which publications display the candidate's contribution.

For Quinquennials: Support for Difference List labeled "Publications During Last 5 Years".

Bug Fixes and Miscellaneous Improvements

- Fixes for the "Jump-To" menu.
 - Menu now adjusts to only show sections of the page that exist. This accommodates Appraisal Snapshots for which the Jump-To list shouldn't show a Last Advance or Difference List option.
 - Addresses an issue causing the Jump-To menu item for "Student Instruction and Sponsorship" to work incorrectly.
 - Addresses an issue causing the Jump-To menu button to block the "Save" button or other functionality on the page.
- Added period of review to the top of page as well as to the CV Overview title header. This displays the chosen period of review for all users who view the Snapshot.
- For Comments, the indication of the date/time changed from "days ago" to basic timestamp (date and time).
- Label changes. "WIP" changed to "Work In Progress Reviews", "Current Step" column heading changed to "Status".
